

# Training at Distance

## More than just video conferences

More tools, more flexibility, less traveling

For our **Trainings at Distance** we combine video sessions with effective online tools on a password protected seminar website. So we make our customers independent from restrictions and improve their planning reliability. That's how the Leadership Orchestra is operated at a distance:

**1 week in advance:** music pieces and preparation task for download

**1st part Online:** Inputs, videos, discussions, crash course

**2nd part Present:** single participants conduct our local ensemble at their destination, Lorenz Huber is connected via internet

**3rd part Online:** Feedbacks, sharing of impressions and learnings

**1 week after:** videos of the conducting session for download

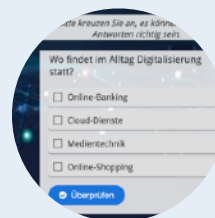

### Video-Sessions

Plenum, breakout groups and single coaching with collaborative writing, polls and ratings

### Pinboard

Videos, pictures and presentations nonstop available

### Tests

Check of learning results with instant feedback
